

# All Trails Lead to Adventure

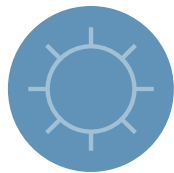

Set amidst the pristine landscape of the Upper North Thompson Valley, Blue River, the Jewel of the Yellowhead, is surrounded by lush interior rainforests of cedar and spruce, sparkling glacier fed lakes, and majestic mountain peaks. Wildlife seekers, outdoor enthusiasts and adrenaline chasers alike will find something to appease their drive to experience nature in its abundance.

## Wild Beauty

Blue River may be unassuming at first glance; however, you only need to get off the highway to begin to discover some of our gems. You will soon realize that like travelers who've come before you, there is much more to Blue River and Avola than first meets the eye.

Blue River is the eastern most gateway to Wells Gray Provincial Park, featuring Murtle Lake, the largest non-motorized lake in North America set at the base of 5,250 square kilometers of raw and vast wilderness.

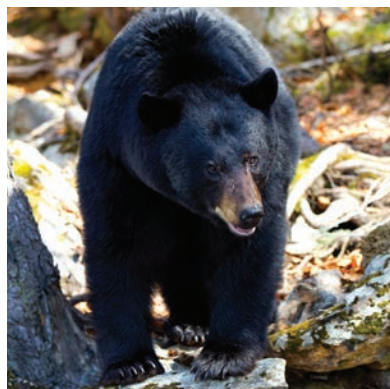

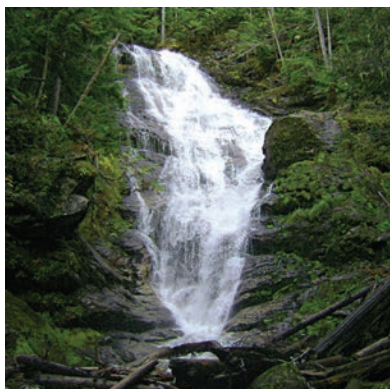

## Summer

Camping, canoeing, hiking, mountain biking, fishing and wildlife tour opportunities are waiting for you to enjoy. From family-friendly sandy shores, to backcountry trails and scenic vistas, come immerse yourself in the Jewel of the Yellowhead.

## Winter

The surrounding Cariboo and Monashee mountains are abundant in dry powder snow during winter months providing heli and backcountry skiers, alpine snowmobilers, cross-country skiers and snowshoers a seemingly endless playground in which to explore. Steep, deep powder, back country bowls and a marked Nordic trail system. We have it all!

## The perfect place!

With an abundance of natural flora and fauna, Blue River is a destination on its own. Situated halfway between Vancouver, BC and Edmonton, AB, an easy stop to grab a bite to eat, stretch your legs, rest your head and fuel-up before continuing your travels.
